you, each with a satellite
location of the Delaware
County Community
College on site!

THAN EVER.

PENNOCK'S BRIDGE

Evan Casper

Class of 2020

TCHS Pennock's Bridge

"Taking college credits while at TCHS has made me confident in my ability to be successful as I take the next step in my education at the Pennsylvania College of Technology, where I will be studying Information Assurance and Cyber Security."

Evan earned **12 college credits** while at TCHS!

Jayda Jimerson

Class of 2020

TCHS Brandywine

"Taking college credits while at TCHS has given me an amazing idea of how life after high school will be, regardless of if I decide to go to college, straight into the workforce or into the armed forces."

Jayda earned **9 college credits** while at TCHS!

BRANDYWINE

What's right for me?

COMPARING YOUR OPPORTUNITIES

The Technical College High School (TCHS) is your link to the college experience. With four ways to earn college credit, there's something for everyone. Explore our side-by-side comparison, and remember that most students will mix and match options to achieve their college goals!

Local Articulation Credits

SOAR Credits

THE BASICS	<p><i>Relationships between one TCHS program and one postsecondary school for a certain number of credits</i></p>  <p>CUSTOM PARTNERSHIPS</p>	<p><i>A PDE-sponsored relationship between TCHS programs and 43 specific postsecondary schools - most in-state.</i></p> 
COST	<p>FREE No tuition or fees</p>	<p>FREE No tuition or fees</p>
TO EARN THESE CREDITS, YOU MUST:	<ul style="list-style-type: none"> • Complete your TCHS technical program with instructor signature • Earn a grade of B or higher within your TCHS technical program • Satisfy additional requirements depending on the college partner 	<ul style="list-style-type: none"> • Enroll in a SOAR-approved TCHS program • Schedule college-prep academic classes at your high school • Maintain a 2.75 GPA in TCHS program • Achieve your high school diploma • Earn a <i>Competent</i> or <i>Advanced</i> score on NOCTI exams • Complete 100% of technical program competency list at Industry Proficient Level
PORT-ABILITY	<p>Low; not transferrable to institutions other than the single college specified in the partnership</p>	<p>Moderate; transfers are possible to 43 Pennsylvania colleges, Allegany College in Maryland and SUNY</p>

Students can learn college-level content while still enrolled in high school. Unlike Local Articulation or SOAR credits, these credits may have a fee; however, they are highly transferrable to more institutions and are ideal for students who are unsure where they'd like to go to college.

Students interested in the Dual-Enrollment Opportunities on this page must complete a college application and any other requirements of the institution that is offering the course. **Your TCHS school counselor** is your point-of-contact for the college requirements for each school. Reach out to your counselor to get the process started!

Concurrent Dual-Enrollment Credits

*Transcripted credit earned
in your TCHS Career & Technical Program*

\$0-\$100 per credit

~~\$284-400 student fees~~
ALL FEES WAIVED

up to \$75-150 in textbooks & materials

- Complete a college application
- Take a college placement exam and test at *college-ready* level
- Take and pass any pre-requisite courses or certifications needed for the course you want
- Offered during the day as part of the high school class

High; very transferrable to colleges accepting transcripted credits

Open Dual-Enrollment Credits

*Transcripted credit earned as a college
student outside of the school day*

\$126 per credit
MOST FEES WAIVED

up to \$75-150 in textbooks & materials

- Complete a college application
- Take a college placement exam and test at *college-ready* level
- Take and pass any pre-requisite courses or certifications needed for the course you want
- Offered after school at a variety of locations

High; very transferrable to colleges accepting transcripted credits

Local Articulation

THE START OF A BEAUTIFUL RELATIONSHIP

AT A GLANCE:

COST	Free (No tuition or fees!)
REQS	<ul style="list-style-type: none">• Complete your CTE or technical program with instructor signature• A grade of B or higher within your TCHS technical program
PORT-ABILITY	Low; not transferrable to other institutions

TCHS has cultivated local articulation partnerships that make earning college credit as easy as attending high school. Local Articulation credits are earned while taking your CTE program courses—no extra courses are required—and transfer directly to the college specified for significant cost and time savings.

TCHS has local articulation agreements with specific colleges; consequently, earned credits will count for colleges for which TCHS has local articulation agreements.

PERFECT FOR:

- Students who know exactly where they want to go to college
- Students who will decide where to go based on how many credits they have already earned at an institution

CAREER & TECHNICAL PATHWAYS LEAD TO HIGH-PRIORITY OCCUPATIONS

PA DEPARTMENT OF LABOR
HIGH-PRIORITY OCCUPATION

High-Priority Occupations are designated by the Department of Labor because they are in high demand and require a high skill level. As a result, graduates of these programs are likely to secure a job faster and earn higher-than-average wages. These occupations are updated each year.

The Pennsylvania Department of Education has also developed programs to support High-Priority Occupations common across Pennsylvania. CTE programs that serve Chester County-specific industries have been approved as Career and Technical programs. These programs reflect a college track academic and technical curriculum that is validated by agreements with post-secondary institutions offering advanced credits or placements for coursework achieved at the Technical College High School. Career and Technical students are expected to take college-prep academics.

TCHS offers the following approved Career and Technical programs: Animal Science, Barbering, Computer Information Systems - Programming, Cosmetology, Digital Media & Sound Communications and Welding and Metal Fabrication.

These programs prepare graduates for high-demand professions, which require high skill and provide a family-sustaining wage. Both SOAR and Career and Technical pathways provide excellent career opportunities for students pursuing a career and technical education.

STUDENTS OCCUPATIONALLY AND ACADEMICALLY READY

The Commonwealth of Pennsylvania developed and supports the SOAR program, which creates a transfer credit relationship between TCHS and up to 43 PA colleges, Allegany College of Maryland and the State University of New York. Students who achieve SOAR requirements (listed to the right) by the time they graduate from TCHS can earn up to **12 free credits** to transfer to college. That's one full, free semester!

For a SOAR program to be developed, the industry must first be designated by the Department of Labor as a **High-Priority Occupation**.

What's a PA DEPARTMENT OF LABOR HIGH-PRIORITY OCCUPATION ?

High-Priority Occupations are designated by the Department of Labor because they are in high demand and require a high skill level. As a result, graduates of these programs are likely to secure a job faster and earn higher-than-average wages. These occupations are updated each year.

*Note: Since requirements include test scores and GPAs, students will not know for certain if they qualify for SOAR credits until May of their senior year. Therefore, SOAR credits should be considered as bonus credits that you **may** earn if you work hard and achieve them, not guaranteed credits that every student will receive.*

PERFECT FOR:

- Academically strong, motivated students
- Students who know they want to go to college locally or in Pennsylvania, even if they haven't chosen a school yet

Overcoming Adversity:

Links Goes Online During COVID-19

Spring 2020

The closure of schools during the 2019-20 school year due to the impact of COVID-19 represented a major challenge to students, educators, families and communities. Even though education transitioned online, TCHS Links students were able to continue earning college credits. Throughout the spring, TCHS students earned **a combined total of 900 college credits!** This accomplishment is a testimony to the incredible work ethic and dedication of TCHS students and faculty.

AT A GLANCE:

COST	Free (No tuition or fees!)
REQUIREMENTS	<ul style="list-style-type: none">• Enroll in a SOAR-approved TCHS program• Schedule college-prep academic classes at your high school• Maintain a 2.75 GPA in your TCHS program• Achieve your high school diploma• Earn a <i>Competent</i> or <i>Advanced</i> score on NOCTI exams• Complete 100% of technical program competency list at Industry Proficient Level
PORT-ABILITY	Moderate; transfers to one or more of 42 specific schools in PA and beyond

SOAR REQUIREMENTS, EXPLAINED

Of all of the college opportunities that TCHS offers, SOAR has the most specific requirements that a student must satisfy in order to earn credits. Below, we explain the requirements and how you can set yourself on a path to satisfy them.

Help! What does this mean?	The Details:
<i>Enroll in a SOAR-approved TCHS program</i>	See page 9 for a list of the TCHS programs that are SOAR-approved, and at which campus those programs are approved.
<i>Schedule college-prep academic classes at your high school</i>	College-preparatory classes at your high school prepare you for college-level work. The best way to find out if what you're taking is college-prep level is to have a conversation with your high school counselor. Ask her or him: "Is what I'm taking considered college-prep? Are the levels of my subjects going to prepare me for college-level work?" The final decision on whether or not your high school classes were college-prep level will come from the college for which you take your SOAR credits.
<i>Maintain a 2.5 GPA in your TCHS program</i>	You must maintain a 2.75 GPA in your TCHS courses by earning good grades on your technical program projects and assessments.
<i>Achieve your high school diploma</i>	SOAR credits can only be used by students who earn their high school diploma.
<i>Earn a Competent or Advanced score on NOCTI exams or NIMS</i>	NOCTI (National Occupational Competency Testing Institute) exams are the standardized tests of your CTE program. The tests are taken during the last year in your program. Both written and hands-on assessments are taken to demonstrate your skill in your program. Similar to Keystone exams, students achieve a rating of Basic, Competent or Advanced. TCHS instructors help students prepare for the NOCTI exams with many days of practice work and studying.
<i>Complete 100% of technical program competency list at Industry-Proficient Level</i>	Your program instructor must verify that you have achieved a level of skill that is considered "industry proficient," which means that you can perform skills independently.

Scan to visit <http://www.CollegeTransfer.net> and look up the credits for your program by CIP code (see chart and instructions on next page).

SOAR College Credit & Search Instructions - CollegeTransfer.net

- Hover mouse over "Search."
- Click on "PA Bureau of CTE SOAR programs" at the bottom of the list.
- Set Your Search Criteria.
 - Step 1 - Select the CIP code button and choose your CTE program from the dropdown menu using the appropriate CIP code from this catalog.
 - Step 2 - Select your graduation year from the dropdown menu.
- Click "Search."
- Find a college you are interested in exploring and click "View Detail" to learn more.

Concurrent-Enrollment

LEARNING AND EARNING, AT THE SAME TIME

AT A GLANCE:

COST	Free or Discounted Rate Tuition (and all fees waived!) \$75-150 for textbooks and supplies (varies)
REQS	<ul style="list-style-type: none">College application to the crediting institutionCollege placement exam and test college-ready
PORT-ABILITY	High; transfers to any college that accepts the transcribed credit

Through partnerships with local colleges, many TCHS students are earning highly transferrable college credits in their Career & Technical Program during their regular school day at TCHS. Instructors in these programs have been vetted by each college to ensure they have the educational credentials and teaching experience to deliver college-level content within their high school programming.

PERFECT FOR:

- Currently enrolled TCHS students
- Students who are unsure of which college to attend
- Academically motivated students

I'd like to earn this kind of credit, but there's nothing taught concurrently in my program. What should I do?

Don't worry; see page 11 to read about more college credit opportunities that might not fit into your school day but can easily be taken after school or in the evening to earn the credits you need. They are also at a reduced tuition rate, so you are still saving while you're earning.

MAKING THE MOST OF IT:

Leo Block CLASS OF 2020

Leo Block found a passion for Criminal Justice and Police Science while at TCHS. Leo had the opportunity to develop essential life skills such as time management, communication and leadership. Leo earned **12 college credits** at TCHS. He will be attending West Chester University as a Criminal Justice major and would like to incorporate Medical Laboratory Sciences into his course of study.

"Taking college credits while still in high school is an amazing feeling. TCHS has prepared me for my life after high school by helping me find resources and skills necessary for success in college. Not only have the teachers and staff given me the knowledge that I needed to get through high school, but they have also given me valuable life lessons. I know now that I can handle the work, and these credits give me a bit of wiggle room to adjust to the new chapter of my life."

PICKERING

Open Dual-Enrollment

YOU'RE IN COLLEGE. SIMPLE AS THAT.

After-school or evening classes are closer than ever with college partners, including Delaware County Community College. At a special reduced rate, these are the most transferrable credits you can earn, and the courses take place in a classroom or online setting with students your age and adult learners from the community. When you participate in Open Dual-Enrollment, you're a real college student, plain and simple.

PERFECT FOR:

- Currently enrolled TCHS students (grades 9-12)
- Students who are unsure of which college they want to attend
- Academically motivated students
- **Any high school student in Chester County**

HEADS UP, PARENTS!

You read that right: any high school student, whether they are a TCHS student or not, can take courses at the same reduced tuition rate, with student fees waived. Now your TCHS student *and his or her siblings* can experience the pride, achievement and savings of affordable college courses during high school.

Get ahead with a Summer Session class!

This specific opportunity can be started earlier than the others. Students who have not yet graduated high school can begin Open Dual-Enrollment classes over the summer and will be finished well before their high school year starts again in the fall.

PICKERING

In October 2019, the Chester County Intermediate Unit (CCIU) celebrated 50 years of providing career and technical education in Chester County. Since 1969, nearly 15,000 students have received a career and technical education in Chester County. Over the last 50 years, TCHS has helped to revolutionize career and technical education in Pennsylvania.

TCHS Links has played a major role in revolutionizing career and technical education in the state by helping to make college credits more accessible to students. By creating a blended college and high school model, TCHS helps open additional career path opportunities to students after graduation. TCHS Links continues to help TCHS be a leader across the state in providing a state-of-the-art career and technical education to students.

AT A GLANCE:

COST	Discounted-Rate Tuition: \$126
	\$75-150 for textbooks and supplies (<i>varies</i>)
