

Building Teacher Capacity

Building teacher capacity is crucial in supporting students in the classroom as well as providing opportunities for teacher growth in their field. By nurturing teacher knowledge of best practices, they are encouraged to try new strategies and work to find new ways to meet the needs of their students. Whether it's learning more about Discovery Education or other trending educational topics, DE has the resources to support teachers in growing in their craft.

Dedicated Supports

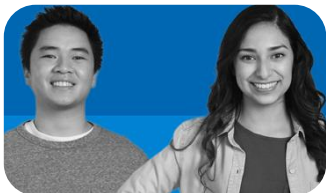

DE Interactive Courses: Dive into all that Discovery Education has to offer you with these self-paced interactive courses. Earn a certificate of completion at the end to submit for credit.

Professional Learning NOW: Grab "just-in-time" professional learning resources that are short, convenient, and relevant to teachers' day-to-day life. In this collection, explore microlearnings that cover topics such as remote teaching and learning, social-emotional learning, and culturally responsive teaching.

Ready, Set, RISE! from Kaiser Permanente: Cultivating trauma-informed educators is essential to creating a better world for both students and adults. Ready, Set, RISE! provides educators with evidence-based resources that help build a community of advocates through trauma-informed practices and strategies.

TGR EDU: Explore: Browse this robust program that supports students in college preparation and high-quality STEM career paths. Standards-aligned resources include newly digitized TGR Learning Labs' curriculum, interactive student experiences, online learning activities, educator training, meaningful family discussion starters and a Virtual Field Trip exploring STEM careers at Facebook.

Ignite My Future: Find eLearning modules and webinars around computational thinking and how to support it in your classroom.

Speak Truth to Power: Join Speak Truth to Power in their Master Class Series highlighting five human rights educators across the US. Each educator shares strategies to foster greater teacher capacity in bringing human rights education into the classroom and how human rights education truly transforms student attitudes and behaviors towards themselves and the world.

If you want to go deeper, we can work with your school or district to coordinate tailored professional learning experiences. Schedule in-person or virtual sessions that cover topics such as STEM, literacy, leadership, digital implementation, and much more.
